NOTICE TO THE PUBLIC

Owing to my inability to lease the ground on which my store building now stands, I must sell out my entire stock, buildings, fixtures and furniture by September 25. Having only a short time to sell out I invite the public to come and see what I have. There will be many bargains picked up.

I also invite bids for the taking down of the buildings and their removal to another lot.

The buildings to be removed before the first of October. WILLIAM RYAN

ADVANTAGES OF HOLLOW CON-CRETE BUILDINGS

Cheapness of construction; buildings warm in winter, cool is summer, dry ventilated walls, fire and dust proof: insurance is cheaper; requires no painting or repairs; blocks can be laid in the wall rapidly and require but little mortar; plastering may be done on the back of the stone, saving lathing: free from rats, mice or vermin; perfectly sanitary, resists rain and dries quickly, while solid walls remain damp.

I use the Right Process, the Right Material and have the Right Kind of Blocks, also the Right Kind of Machin-ery. Estimates on Building Promptly Furnished. Call at

The "Telephone Neck" Now

The women of the farming districts f Connecticut are getting the "telephone neck." Doctors say that the sex is destined to be deformed. Some time ago the telephone was in-

stalled in nearly every farmhouse. Since then the women have used the phones by the hour, standing in a position which throws their heads to the left side. The muscles of the neck do not fully recover, and half of the women walking the streets incline their heads severly to the left as though standing at a phone with the receiver at their ear.—Derby (Conn) Dispatch to the New York World.
